

Empowering Justice, Accelerating Technology

About NTT DATA

- Top 10 global IT & communications company
- 55+ years of government service
- \$3.6B annual R&D investment
- 90+ federal agencies and military branches served

Our work at DOJ

- Saved DOJ \$27M by eliminating duplicate systems and streamlined electronic case control
- Helped DOJ resolve 300,000 immigration cases annually
- Identified \$133M in structuring activity, leading to more than \$3.5M in direct DEA seizures
- Won the Justice Management Division Commendation Award

Technology's accelerating pace presents both opportunities and challenges for the law enforcement community. Adopting 5G and zero trust architectures speeds up and protects communications. Leveraging artificial intelligence, machine learning, data collection and analytics enhances mission support. To take full advantage of these and other forward-reaching technologies, you need a trusted, experienced partner to guide your journey. NTT DATA is that partner.

Our teams of dedicated professionals have supported the Department of Justice (DOJ) for over two decades. We've provided training development at the Federal Bureau of Investigation and case management at the Office of the Attorney General. We've also helped with forensic investigations at the Drug Enforcement Agency and cloud implementation at the Executive Office for Immigration Review. As individuals and as a company, we're committed to your mission to protect and serve the nation.

NTT DATA's qualifications combine commercial and government expertise, refined through a lexicon of lessons learned across thousands of successful engagements. We deliver top-notch services and solutions for **cybersecurity, hybrid infrastructure, cloud, intelligent networking, application development and modernization, workplace services, consulting, education and training**. As a global company, we maintain the highest levels of partnership with technology vendors, including Amazon Web Services, Microsoft, Oracle, ServiceNow and others.

Information and data are a top priority across our digital government protection of critical enterprise assets. [With global ransomware attacks up 240%](#), geopolitical conflicts highlighting cyberthreats, and targets on both critical infrastructure and supply chains, a defensive cybersecurity posture is paramount to safeguarding our world. NTT DATA has a front-row seat to attack origins and provide protections. We examine data from more than 800 billion logs each month to help develop secure solutions. Our comprehensive cybersecurity for government solutions include **zero trust** approaches, effective **cyber hygiene**, automated **security controls** and compliance, and advanced **data and cloud security**. With our help, you can protect and defend your agency's assets and systems. Our cybersecurity-focused advisory services will help you find the right strategy to secure your enterprise.
