## NTTDATA Services

## Navigate the Complexities of Mergers, Acquisitions and Divestitures

# Up to 50%

of mergers and acquisitions (M&A) fail to deliver the gains business leaders anticipated.<sup>1</sup> **IT has one of the most critical roles in the integration** 

process — and can make or break your next M&A deal.

<sup>1</sup> "Mergers and Acquisitions failure rates and perspectives on why they fail." International Journal of Innovation and Applied Studies. July 2016.

Build a more disciplined framework for IT integration or separation into your transaction planning and execution with NTT DATA.

Our roadmap for IT integration and divestitures:

- Extending services and coexistence
- Identity management and authentication
  Infrastructure readiness

Right-sizing

Soft cutover

• Execution and migration

#### • TSA negotiation

- Technical roadmap
- Dependency identification
- IT resource capacity planning

Hard cutover

- Review/revise SLA and licenses
- Remove redundancies
- Standardize

### With our strategic approach, you can:

Let's get started. Read about <u>our approach to IT integration</u> or visit our <u>IT Consulting & Integration</u> page to learn more.
